

## **DISTRIBUTION, DUPLICATION, AND RECORDING FORM**

As part of ASCPT's commitment to maximizing access to the high-level education offered at the Annual Meeting, and with access to online content increasingly becoming an expectation of scientific meeting attendees, ASCPT is piloting a program in which selected sessions will be recorded and offered online after the conclusion of the ASCPT 2019 Meeting. While your session may not be among those recorded, it is important that we gather the necessary permissions so that we can make this a successful endeavor. We ask that you kindly confirm your intent to grant ASCPT the necessary permissions to record and distribute your session online after the Annual Meeting.

By signing below, you grant ASCPT permission to record and distribute, in any and all media formats, your presentation at the ASCPT 2019 Annual Meeting, including your final PowerPoint presentation and any presentation handouts on the ASCPT website.

By signing below, you affirm that the content in this presentation is original, and that you have received all necessary permissions to use and share all content contained within this presentation, including but not limited to, music, video or sound clips from movies and/or television, information taken from websites, published materials, or past presentations, from the appropriate sources.
