

ASCPT Mentor Award

The *ASCPT Mentor Award* was established in 2011 by the ASCPT Education Committee. A mentor is one of the most influential figures in the life of a student/trainee in the field of pharmacology. This award will recognize an ASCPT member who serves in a mentoring role, making a significant impact in the career of his or her mentee, and contributes to the retention of young members.

Prize and Presentation

The ASCPT Mentor Award recipient will be recognized at the ASCPT Annual Meeting, will receive a plaque, and will be acknowledged in the ASCPT Annual Meeting Program.
