

ASCPT Mentor Award

The *ASCPT Mentor Award* was established in 2011 by the ASCPT Education Committee. A mentor is one of the most influential figures in the life of a student/trainee in the field of pharmacology. This award will recognize an ASCPT member who serves in a mentoring role, making a significant impact in the career of his or her mentee, and contributes to the retention of young members.

The candidate for this award must be an ASCPT member who has participated in the ASCPT Mentoring Program.

Prize and Presentation

The ASCPT Mentor Award recipient will be recognized during the Opening Session at the ASCPT 2018 Annual Meeting, will receive a plaque, and will be acknowledged in the ASCPT 2018 Annual Meeting Program.
