

**Meet the Network and Community Leadership**  
**Network: Translational & Precision Medicine (TPM)**  
**Community: Biomarkers and Translational Tools (BTT)**

**Community Vice Chair:**  
**Ana Caroline Costa Sa,**  
**PhD**  
GlaxoSmithKline

Ana Caroline Costa Sa (Carol) received her Bachelor's degree of Pharmacy from the University of Brasilia, Brazil, and her Master's degree in Genetics and Parasite Biology from the Oswaldo Cruz Foundation, Rio de Janeiro, Brazil. Carol has recently concluded her PhD in Genetics and Genomics at the University of Florida. She is a highly-motivated scientist with four years of experience in genomics research and big data integration to support biomarker discovery/development and patient stratification. Carol has authored eight manuscripts, most of them on the identification of molecular markers of drug response. Currently, Carol is a Postdoc in the R&D Target Sciences Department at GlaxoSmithKline in Collegeville, PA.
