

**Meet the Network and Community Leadership**  
**Network: Development, Regulatory, & Outcomes (DRO)**  
**Community: Regulatory Science (RS)**

**Community Vice Chair:**  
**Anuradha**  
**Ramamoorthy, PhD**

Anuradha (Anu) Ramamoorthy, PhD is a Clinical Pharmacologist in the Genomics and Targeted Therapy Group in the Office of Clinical Pharmacology, CDER, FDA. In her current position, she contributes to regulatory review of investigational new drugs (IND), new drug applications (NDA), and biologic licensing applications (BLA) to effectively incorporate pharmacogenomic biomarker strategies during drug development. She manages regulatory science research projects that are focused on advancing the use of genomic and other biomarkers in drug development, and is also involved in regulatory policy and guidance development. She received Ph.D. in Medical and Molecular Genetics from Indiana University and has completed post-doctoral fellowships at the National Institute on Aging (NIA, NIH) and the Office of Clinical Pharmacology, CDER, FDA.
